

What is the largest solar project in Albania?

Image: Karavasta French renewable power company Voltalia has commissioned a 140MW solar project in southern Albania, said to be the country's largest to date. The Karavasta solar plant in Albania's Fier district has begun production and is now delivering its first electricity to the grid.

Does Voltalia have a solar project in Albania?

Karavasta was one of two solar projects awarded to Voltalia under tenders organised by Albania's Ministry of Infrastructure and Energy (MIE) and sponsored by the European Bank for Reconstruction and Development. Voltalia's second project in Albania, the 100MW Spitalla Solar plant, has yet to be completed.

What is Voltalia doing in Albania?

Voltalia has started doing business in Albania in 2018 with the unsuccessful participation in the first solar tender organized by the Ministry of Infrastructure and Energy of the Republic of Albania ("MIE"). Despite this result, Voltalia has demonstrated great interest in the construction of 2.5 MW FiT-solar PV projects.

Is agrisolar a viable solution for a growing rural economy in Albania?

About 20% of Albania GDP relies on agriculture that employs about 60% of the population (as of 2020). Hence, agrisolar (and agrivoltaic) projects are among the most effective solution for a growing rural economy. Karavasta Solar Project - 140 MW | Voltalia's first development in Albania | Voltalia has started doing business in Albania in 2018 ...

Will Voltalia build a fit-solar PV project?

Despite this result, Voltalia has demonstrated great interest in the construction of 2.5 MW FiT-solar PV projects. So far, Voltalia has built 3 of such solar plants for third parties.

What agrisolar projects is Voltalia working on?

Target projects are mostly solar PV and wind. But not only. Voltalia is also working on agrisolar projects, where the food production and the power generation are combined for the utmost use of the lands. About 20% of Albania GDP relies on agriculture that employs about 60% of the population (as of 2020).

12kW Solar system: Solar panels with battery storage in the UK. To begin with, let's have a look at how solar panel systems actually work. The type of solar panel needed for electricity production is called a photovoltaic solar panel. This ...

At 140 MW in peak capacity, Karavasta is the biggest photovoltaic system in the region. It is about to begin delivering electricity to the transmission system in Albania. The ...
