

Who is adelsystem?

A technological path has been made, and our vision has been rewarded by the development of market needs. Established in 1991, ADELSystem produces linear and switch-mode power supply units. ADELSystem is recognized as one of the world's foremost manufacturers of industrial power supplies, DC UPS, and intelligent battery chargers.

What is adelsystem power supply?

Adelsystem has developed a new range of power supplies solution for building automation applications, idea... Adelsystem provides its support to dedicated control stations that manage meteorological and hydrolo... UNDERGROUND IOT NETWORK INFRASTRUCTURE POWER BACKUP. Thanks to the performance and reliability of our DC-UP...

Why should you choose adelsystem?

The company is renowned for its focus on research and development, leading to advanced, efficient, and reliable products. AdelSystem's DC UPS systems, for example, are highly regarded for their ability to ensure uninterrupted power supply, crucial for industrial automation and telecommunications infrastructure.

What makes adelsystem unique?

In summary, AdelSystem's blend of innovation, quality, and customer-focused services positions it as a key player in the global market for power supply technologies, servicing a wide range of industrial sectors with its sophisticated and sustainable products. Can't Find the Product You Want?

What is Adel system?

ADEL System provides a complete range of innovative solutions to support fields in development such as Smart City and Security Integration. ... Continue... How the DC-UPS ADEL System fits the world's first fully integrated turnkey floating LNG terminal? What is the reason why our DC... Continue...

What makes adelsystem a sustainable company?

AdelSystem places a strong emphasis on sustainability and energy efficiency, reflecting a commitment to environmentally conscious practices in their product designs. This approach not only serves a diverse global clientele but also aligns with the growing demand for sustainable and energy-efficient solutions across various industries.

PULS has acquired the Italian DC UPS specialist Adelsystem, significantly expanding its range of DIN rail power supplies. The new products are a perfectly complementary addition to PULS's existing DC UPS offerings.

These units, so important for the Adelsystem's story in the power supply continuity field, are also available

with output to 5V and 12V, suitable for complex applications and output to 48 Vdc, with specific features designed for driving ...

AdelSystem specializes in power supply solutions, offering an extensive range of battery chargers, DC UPS, and power supply units. They focus on innovation and reliability, providing ...
