

Will Algeria build a solar PV plant?

The state owned utility for electricity and natural gas distribution in Algeria has signed 19 contracts with local and international companies to construct solar PV plants. In making the announcement recently, the government said the project to produce 3,000MW of solar PV energy is part of its Renewable Energy Development Programme.

What are Algeria's New 3 GW solar tenders?

Algeria's new 3 GW solar tenders mark a major shift in its energy landscape, aiming to expand solar beyond remote areas and develop a local renewable energy sector. With high solar potential, the tenders reflect Algeria's commitment to reduce its reliance on gas and boost domestic solar capacity.

Why are Algeria's solar tenders so important?

With high solar potential, the tenders reflect Algeria's commitment to reduce its reliance on gas and boost domestic solar capacity. Algeria -- a nation traditionally dependent on gas -- is set to take significant strides in solar energy through two large-scale solar tenders with a combined capacity of 3 GW.

Who will fund solar projects in Algeria?

The Algeria government is to fund the solar projects. Sonelgaz has signed 19 contracts with local and international companies to construct solar PV plants across Algeria.

Where are solar panels made in Algeria?

Alongside Zergoun, the manufacturer Lagua Solaire has 200 MW of annual capacity for solar panel production in Algeria. The production plant of Algerian telecommunications and renewable energy company Milltech has a facility in Mila, in the east of the country, with a production capacity of 100 MW for M3-based modules. Manufacturing hub

Can Algeria achieve 15,000 MWp of solar energy by 2035?

To diversify its energy mix, largely dominated by gas and oil, Algeria wants to achieve 15,000 MWp of solar energy by 2035. A call for tenders is underway to install solar power plants in several regions. The region of Laghouat is at the forefront of this conversion: solar kits have been distributed to remote villages and to nomadic populations.

En Agneo, somos expertos en instalaciones fotovoltaicas. Ofrecemos servicios de replanteo topografico, obra civil, instalaci3n el3ctrica y m3s. Transformamos la energ3a solar en ...
