

Who is ESS?

We are ESS, a leading implementation-focused advisory services firm delivering sustainable development in Africa and emerging economies. We support you to cost-effectively integrate key Environmental, Social and Governance (ESG) and sustainability considerations into your business model, on the ground in the countries where you work.

Where are solar panels made in Algeria?

Alongside Zergoun, the manufacturer Lagua Solaire has 200 MW of annual capacity for solar panel production in Algeria. The production plant of Algerian telecommunications and renewable energy company Milltech has a facility in Mila, in the east of the country, with a production capacity of 100 MW for M3-based modules.

Manufacturing hub

Will Algeria become a hub for solar glass production?

Offering its companies a low electricity price of about DZD 4.68 (\$0.03)/kWh, Algeria envisions becoming a hub for solar glass production, both for its domestic market and for US manufacturers, to replace Asian markets affected by an import ban on their photovoltaic equipment.

Can Algeria replace its gas and oil exports?

To gradually replace its gas and oil exports, Algeria aims to position itself on the international energy scene as a supplier of blue hydrogen (produced by steam reforming gas equipped with carbon capture technology) and green hydrogen (produced via electrolysis powered by renewables).

How much energy does Algeria produce a year?

The country has an average of 3,000 hours of sunshine per year and global horizontal irradiation of almost 1,700 kWh/m²/year in the north and 2,263 kWh/m²/year in the south. Nevertheless, nearly 100% electrified Algeria generates 99% of its energy from domestic gas.

How a 'made in Algeria' PV project will create 12,000 jobs?

Moreover, the development of PV projects is now accompanied by a genuine strategy to establish a local industrial sector, with the aim of creating 12,000 jobs. Addressing such "made in Algeria" products, the tender specifications included an explicit clause related to local content.
