

American lithium energy corp Micronesia

What is American Lithium Energy?

American Lithium Energy (ALE) is shipping the world's highest energy density silicon-based lithium-ion batteries with industry best safety and zero-volt stability. Existing lithium battery technologies cannot meet the rapidly growing demand for more powerful, longer-lasting, smaller, and safer batteries.

Who is American Lithium Corp?

American Lithium Corp. is a Canadian development company focused on the advancement of two large-scale lithium projects: the Falchani exploration project in Puno, Peru - a unique volcanic-hosted lithium project - and the Tonopah Lithium Claims exploration project in Nye County, Nevada - a clay-hosted lithium deposit.

Where is American Lithium Energy headquartered?

ALE is headquartered in Carlsbad, California, USA where it performs all research, development and manufacturing operations in state-of-the-art facilities. Get to Know American Lithium Energy - Our Vision, Mission, and Commitment to Advancing Sustainable Energy Solutions. Learn About Our Journey Towards a Greener Tomorrow.

When did American lithium acquire plateau Energy Ltd?

American Lithium acquired Plateau Energy Ltd in an all-share transaction on May 11, 2021, and subsequently added the Falchani and Macusani projects in Peru to its project portfolio.

Is American lithium a uranium company?

American Lithium Corp. is a mining firm with lithium and uranium properties in Peru and Nevada, such as the Falchani project in Peru and the Tonopah Lithium Claims project. The company has announced its intention to spin off its Macusani Uranium project in the first half of 2023, allowing it to concentrate only on its lithium projects.

What is American lithium doing in south-eastern Peru?

In south-eastern Peru, American Lithium is developing the advanced-stage Falchani hard rock lithium deposit, as well as one of the world's largest undeveloped uranium deposits, known as Macusani. Ensuring a safe, secure supply of strategic battery/energy metals is of growing importance to the US and other Western nations.
