Andorra czar power

Is Andorra a parliamentary democracy?

A constitution ratified and approved in 1993 establishes Andorra as a sovereign parliamentary democracythat retains the Bishop of Urgell and president of France as co-princes and heads of state. However, the head of government retains executive power.

Does Andorra compete in the Olympics?

The country has appeared in every Winter Olympic Games since 1976. Andorra competes in the Games of the Small States of Europe, being twice the host country, in 1991 and 2005. As one of the Catalan Countries, Andorra is home to a team of castellers, or Catalan human tower builders.

What is the difference between executive and legislative power in Andorra?

Executive power is exercised by the government, with the Head of Government of Andorra as chief executive. Legislative power is vested in both the government and parliament. The judiciary is independent of the executive and the legislature.

What is the basic principle of Andorra defense?

The basic principle of Andorran defence is that all able-bodied men are available to fight if called upon by the summoning of the Sometent(a civil defense organization of Andorra,made up of the heads of households). The Sometent was used sparingly against French "Lutheran" raids during the late 16th century.

The politics of Andorra take place in a framework of a parliamentary constitutional monarchy, and a multi-party system. Executive power is exercised by the government, with the Head of Government of Andorra as chief executive.

Andorra has become a popular tourist destination visited by approximately 8 million people each year drawn by the winter sports, summer climate, and duty-free shopping. Andorra has also become a wealthy international commercial center because of its mature banking sector and low taxes.

Onshore wind: Potential wind power density (W/m2) is shown in the seven classes used by NREL, measured at a height of 100m. The bar chart shows the distribution of the country"s land area in each of these classes compared to the global distribution of wind resources. Areas in the third class or above are considered to be a good wind resource.
