

Since our establishment in 2015, we have helped clients evaluate and choose the optimal size of solar photovoltaic systems in accordance to their electrical usage and budget. Our range of services include consultation, design, procurement up to the final installation of solar photovoltaic systems and lightings.

Grid-tied residential solar energy systems, also known as grid-connected or grid-interactive solar systems, are a popular choice for homeowners looking to generate their own clean energy. These systems are connected to the electricity grid, allowing excess energy generated from the solar panels to be sent back to the grid and credited to the ...

Whether you require a rooftop solar plant, solar water heater, solar pump, solar light, solar EV charging station, or a large-scale solar power plant, we have the expertise to deliver reliable ...

Celebrate a brighter, greener future with Megawatt Solar Solutions Sdn Bhd - your solar panel installation experts. We provide top-tier Residential, & Commercial Solutions, combining sustainability, savings, and efficiency in every project.

AIMS Power inverters, inverter chargers, and solar inverter chargers are here to give power to the people of Brunei. AIMS Power also carries 30, 60, 120 and 230 watt solar panels, deep-cycle batteries, cables, fuses, solar charge controllers (MPPT and PWM), and anything needed to create an off-grid, mobile or backup power system.

We provide consultation, design, procurement and installation services for solar photovoltaic systems and lightings. Our client includes the government of Brunei Darussalam, private companies and individuals (home owners).

Whether you require a rooftop solar plant, solar water heater, solar pump, solar light, solar EV charging station, or a large-scale solar power plant, we have the expertise to deliver reliable and innovative solutions.

A schematic diagram of an off-grid solar photovoltaic system. Our team will assist you to determine the right system size based on your usage and/or budget all the way through designing and installation. To request for a quotation you may reach us at +673 8902 948 (direct WhatsApp link) or fill in the quotation form below:

At the moment, there is no regulatory governing the installation of solar panel in Brunei. Companies follow international standards for solar PV systems that convert solar energy into electrical energy, as well as for all the elements in the entire system.
