

Arc energy Jamaica

What will Arc Manufacturing do for Jamaica?

Arc Manufacturing's two new plants will position it as the sole manufacturer of hollow sections and metal pipes in Jamaica and give it the muscle it needs to carve market share away from imports. The 30,000-square-foot space they will share will ultimately benefit the company, as indicated this week.

Does ARC sell building materials in Jamaica?

ARC is one of the four major distributors of building materials in Jamaica and sells primarily to projects, contractors, developers, and 'mom-and-pop' hardware stores located throughout the country.

How much cement does Arc Make a year?

Arc Manufacturing produces approximately 120,000 tons of cement annually. Another one of ARC's business units is its Lumber Treatment Plant - a \$400 million, state-of-the-art facility, which it launched in 2013.

The two new plants to be developed will share a 30,000-square-foot space, will position Arc as the sole manufacturer of hollow sections and metal pipes in Jamaica, and will ultimately give it the muscle it needs to carve market share away from imports, the company indicated this week.
