

What is a Genesis Xe battery?

Genesis XE batteries are manufactured with Thin Plate Pure Lead(TPPL) technology, packing enormous power in a smaller footprint, making them ideal for custom applications where space is of the utmost importance. Genesis XE batteries are found in alternative energy applications such as solar and wind power, and Hybrid Electric Vehicles (HEV).

What is a Genesis NP battery?

With high energy density, excellent performance in either float or cyclic applications, and long service life, Genesis NP batteries power security systems, emergency lighting and more in a space efficient footprint. Compact, quick and simple to install, Genesis NP batteries require low maintenance and never need watering.

What is a Genesis EP battery?

Premium high performance Genesis EP batteries are manufactured with Thin Plate Pure Lead(TPPL) technology, packing more power into a smaller footprint. Genesis EP batteries are suitable for a wide range of physically demanding applications and safe for human environments such as offices and hospitals. Request a Quote

How long do Genesis Xe batteries last?

Genesis XE batteries also feature a 2-year shelf life at 77°F (25°C) and superior deep discharge recovery. Genesis XE batteries manufactured with TPPL, packing enormous power in a smaller footprint, ideal for custom applications where space is of utmost importance.

power density for your money. GENESIS " greater volumetric power allows engineers to consider more energy-supporting features or design smaller, lighter packages. At high-rate and pulse discharges, EnerSys" GENESIS products offer the best performance value when compared with competitive product in applications at less than 100 minutes of ...

Genesis EP batteries are found in applications as diverse as electronics, medical equipment, telecommunications, renewable energy, computer backup and Uninterruptible Power Supply (UPS) applications. In addition to its superior performance characteristics, the Genesis EP battery non-spillable design allows for mounting in any position (except ...

Genesis®; EP Premium high performance Genesis ®; EP batteries are manufactured with Thin Plate Pure Lead (TPPL) technology, packing more power into a smaller footprint. Genesis EP batteries are suitable for a wide range of physically demanding applications and safe for human environments such as offices and hospitals.

## Azerbaijan enerSys genesis

Baterías Genesis EP Las baterías de alto rendimiento Genesis EP se fabrican con la tecnología de placas delgadas de plomo puro (TPPL) para ofrecer más potencia en menos espacio. Las baterías Genesis EP son adecuadas para numerosas aplicaciones físicamente exigentes y son seguras para entornos humanos como oficinas y hospitales.

Capacitance: 0.8 A-hr to 91 A-hr; Designed life: 3-5 years at 25 °C (77 °F) Recognized UL; Works in any position; Can be used in following systems: security, electronic, emergency lighting, ...
