

The Leader of Green Ship Pipeline Equipment Integration Solutions. Yada Green Energy Solutions Co., Ltd. was established in 1993, provides full lifecycle services to customers from principle design, Stress analysis, detail design, components manufacturing, spool prefabrication, skids integration, installation, safety monitoring, operation and ...

YADA and MAN Cryo reached global strategic cooperation agreement based on dual fuel supply system for marine projects, which covers LNG, methanol, ammonia, hydrogen, etc., providing customers with the full life cycle services of basic design, detailed design, analysis & simulation, production design, manufacturing, installation and commissioning, operation and maintenance.

YADA has 12 product lines, from seamless steel pipe, welded pipe, pipe fitting, flange to bracket, prefabricated pipe, double-wall pipe, pump tower and module, creating the only fully equipped flexible manufacturing enterprise in China to ensure the quality and quantity of products delivered to customers in various industries.

With the vision of becoming the leader of green marine pipeline equipment integration solutions, in order to maximize customer benefits, YADA is committed to developing upmarket equipment manufacture industry, focusing on providing integrated solutions for advanced ships, marine engineering and clean energy, as well as cost-effective modular ...

YADA and MAN Cryo reached global strategic cooperation agreement based on dual fuel supply system for marine projects, which covers LNG, methanol, ammonia, hydrogen, etc., providing customers with the full life cycle services of basic design, detailed design, analysis & simulation, production design, manufacturing, installation and ...

YADA and MAN Cryo reached global strategic cooperation agreement based on dual fuel supply system for marine projects, which covers LNG, methanol, ammonia, hydrogen, etc., providing ...

YADA actively responds to the call of the state, in various fields such as international shipping and ocean engineering, facing the direction of green and low-carbon development, actively layouts related product design and research and development focusing on LNG energy, and actively carries out technology reserve and research and development in hydrogen energy, ammonia ...

YADA has set up a technology research and development center, with a technical design team of more than 100 people, and establish an industry-university-research mechanism in cooperation with shipbuilding institutes, aerospace institutes, Zhejiang University, Jiangsu University of Science and Technology and other universities and research ...

Focusing on stainless steel pipeline system and integrated solutions, covers the whole process from raw material to detail design, manufacturing, installation and maintenance, YADA provides pipeline system related comprehensive services to global customers in marine engineering, energy and chemical industry.

YADA is one of the first domestic enterprises to provide gas carrier related services, and now has the ability to provide the overall solution service for gas carrier. In the service history of more than ten years, YADA had completed pump towers for large LNG powered ships and won the national first set of award.

YADA was established in 1993, after 30 years of continuous cultivation and exploration, gradually improve the manufacturing capacity of the whole industry chain from primary manufacturing to quaternary manufacturing, and become a leader in integrated solutions for green marine pipeline equipment, achieving mutual benefits for all levels.

YADA was established in 1993, after 30 years of continuous cultivation and exploration, gradually improve the manufacturing capacity of the whole industry chain from primary manufacturing to ...

YADA has obtained "continuous vacuum insulation double-wall pipe production and installation process" and other dozens of double-wall pipe related patents, posses complete independent ...

YADA's fabrication strength is evident in its 100,000m² manufacturing centre, where significant investments have been made, including equipment required for custom-designed products. Facts & Figures Company: YADA GREEN ENERGY SOLUTIONS CO., LTD. Established: 1993 Headquarter: Jiaying City, China

The integrated solutions of chemical tanker cover from principle design, optimization design, prefabricated pipeline manufacture (including pre-insulation inside factory), coating, on-board installation, overall inspection submission to entire ship passivation service, YADA provides a strong guarantee for the project quality and on-time delivery.
