Is Alternergy building a solar power project in Bataan?

ALTERNERGY Holdings Corp. is set to begin constructing its 28 megawatt-peak Solana Solar Power Project in Hermosa, Bataan, it said on Wednesday. Alternergy and its sub-holding company Solar Pacific Energy Corp., which wholly owns Solana Solar Alpha, Inc., has broken ground on the project, which has an estimated cost of P1.5 billion.

Is Ayala investing in Bataan solar?

Ayala-led AC Energy Philippines, Inc. (ACEN) is investing more funds into the development of a solar facility in Bataan. The power company told the stock exchange on Friday that it signed a subscription deal with its wholly owned subsidiary Bataan Solar Energy, Inc. (BSEI) to acquire P400 million-worth of shares.

Why did AC Energy Invest in Bataan solar?

The investment in Bataan Solar is part of the company's P2.2-billion funding program to introduce new energy technologies in the Philippines. Last month, AC Energy also subscribed shares in Buendia Christiana Holdings Corp., one of its special-purpose vehicles, to buy and develop potential project sites.

Central Luzon, which includes Bataan, has good solar energy potential. The proposed 50-MW could be an addition to the three pre-existing solar farms with a total estimated installed capacity of 37-MW.

Bataan Solar Power PV Park is a 20MW solar PV power project. It is planned in Central Luzon, Philippines. The project is currently in permitting stage. It will be developed in single phase. The project construction is likely to commence in 2023 and is expected to enter into commercial operation in 2024.

Alternergy Holdings Corporation (Alternergy) has secured PHP1 billion in funding from the Rizal Commercial Banking Corporation (RCBC) to develop a 28 MW solar farm in Bataan, Philippines. The solar farm project will be developed by Solar Pacific Energy Corporation, an Alternergy subsidiary.
