

Battery farm Dominican Republic

Is Zenith launching a solar farm in the Dominican Republic?

Source: Comisi#243;n Nacional de Energ#237;a () Zenith Energy Corp SRL, a subsidiary of Blacktree Capital Management, has initiated construction of the 101.2-MWp Dominicana Azul solar farm in the Dominican Republic, launching a project that will boast the Caribbean nation's first battery energy storage system (BESS).

What is the first solar-plus-storage project in the Dominican Republic?

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS). The Comisi#243;n Nacional De Energia (CNE) of the Dominican Republic announced the start of work on the Dominicana Azul solar project shortly in late December (22 December).

How much power will the Dominicana Azul solar farm produce?

The Dominican national energy commission CNE said that the solar farm will have a BESS of 24.8 MW of power and 99.2 MWh of storage capacity. The Dominicana Azul plant will be capable of producing around 176.4 GWh of electricity annually for the national grid. Zenith Energy will build the facilities in the Cabrera municipality.

The government of the Dominican Republic has recently recognised the need for energy storage to integrate intermittent renewable energy generation, and the CNE recently issued two resolutions to kickstart the market.
