

Soleos Energy, in collaboration with Melci Holdings, has announced the development of a 200MW solar photovoltaic (PV) project in the Democratic Republic of Congo (DRC). The project, valued at \$200 million, is expected to significantly boost the region's renewable energy capacity, providing clean electricity to over a million people and ...

In the Democratic Republic of Congo (DRC), an engineering, procurement and construction solar company has completed and commissioned a 120kWh hybrid solar PV mini-grid project. The system involves a distribution line for 350 users and has a ground-mounted battery energy storage capacity of 225kWh alongside a 72kVA generator.

Equatorial Power will install a new mini-grid on the island of Idjwi in Lake Kivu in the Democratic Republic of Congo (DRC). The Ugandan-based company plans to install a solar photovoltaic system with batteries for ...

The Goma Hybrid Solar plant in the Democratic Republic of the Congo is currently the largest off-grid mini-grid in the sub-Saharan Africa. The 1.3MW plant is one of four smart solar sites with a combined capacity of 1.693MW operated by Nuru. These plants combine three energy source: solar modules, batteries and diesel generators.

In the Democratic Republic of Congo (DRC), an engineering, procurement and construction solar company has completed and commissioned a 120kWh hybrid solar PV mini-grid project. The system involves a distribution ...

US engineering and infrastructure firm, KE International, in partnership with Kenyan&nbsp;investor, Julius Mwale, will construct a 16-gigawatt battery manufacturing plant in the&nbsp;Democratic Republic of the Congo ...

India's Soleos Energy, in partnership with Melci Holdings, has started building a 200 MW solar park in the Democratic Republic of the Congo (DRC). The project is set for commissioning by...

The Programme will support the development of three solar green mini-grid pilot projects, each with battery storage, aggregating to a capacity of around 30 MW in three towns in the Democratic Republic of Congo: Isiro, ...

Namkoo is proud to present a 12kW off-grid solar energy storage system designed to meet the unique needs of the hospital in the Democratic Republic of Congo. This innovative project marks a significant stride towards

ensuring uninterrupted medical services, even in the face of power outages.

The Programme will support the development of three solar green mini-grid pilot projects, each with battery storage, aggregating to a capacity of around 30 MW in three towns in the Democratic Republic of Congo: Isiro, Bumba, and Gemena, and to strengthen the enabling regulatory environment for private investment in green mini-grid projects.

US engineering and infrastructure firm, KE International, in partnership with Kenyan investor, Julius Mwale, will construct a 16-gigawatt battery manufacturing plant in the Democratic Republic of the Congo (DRC). It will produce solar batteries and will be the world's largest storage battery plant.

Equatorial Power will install a new mini-grid on the island of Idjwi in Lake Kivu in the Democratic Republic of Congo (DRC). The Ugandan-based company plans to install a solar photovoltaic system with batteries for electricity storage. The off-grid solar system developer has chosen SustainSolar to carry out its project.

Not-for-profit GivePower Foundation, created by US firm SolarCity, has installed the Democratic Republic of Congo's (DRC) first minigrid using solar and battery storage at Virunga...

At least up to 320,000 people living in peri-urban and rural areas will gain access to electricity through hub-based battery rentals. BGFA has signed an agreement worth a total of EUR 3 million with Mobile Power subsidiary MPDRC in the Democratic Republic of the Congo (DRC) to further support the business development. The results-based ...

The Goma Hybrid Solar plant in the Democratic Republic of the Congo is currently the largest off-grid mini-grid in the sub-Saharan Africa. The 1.3MW plant is one of four smart solar sites with a combined capacity of ...
