

The move follows Russia's claim last month that it will have produced prototype batteries by the middle of the year. Now Renera, a subsidiary of state-owned nuclear energy giant Rosatom, says it plans to manufacture ...

The volume of the lithium-ion battery market in monetary terms in 2020 is more than \$46 billion. If we take the numbers for all customs codes (Tables 2 and 3) and sum them up, it turns out that the share of Russia in the world is approximately 0.52%. We will do further analysis only at the end of 2021.

AKOM is the main supplier of the battery to the Russian market - more than 50% of all supplies, and 70% of all exports of the industry from Russia. The dealer network consists of 100 partners in all regions of Russia, 36 more - in the CIS countries, South-East Asia and Western Europe.

In October 2024, it is planned to complete construction work on the launch of a new plant in the Laishevo Industrial Park, where lithium-ion batteries will be produced. This is reported in an article presenting the activities of NETER, which was recently included in the list of the "100 best enterprises and organizations in Russia -- 2024";.

Russian nuclear energy giant Rosatom has acquired a 49% stake in Enertech International, a South Korean lithium-ion battery specialist, and has announced plans to build a gigafactory at an ...

January 5, 2023: Russia's prime minister Mikhail Mishustin (pictured) says work has started on the first of a potential series of gigafactories as it scrambles to ramp up domestic battery ...

The move follows Russia's claim last month that it will have produced prototype batteries by the middle of the year. Now Renera, a subsidiary of state-owned nuclear energy giant Rosatom, says it plans to manufacture more than 18GWh of lithium ion batteries by 2030 -- the period covered by the investment contract -- although details of the ...

January 5, 2023: Russia's prime minister Mikhail Mishustin (pictured) says work has started on the first of a potential series of gigafactories as it scrambles to ramp up domestic battery manufacturing capacity for energy storage systems and EVs, after foreign investors and partners quit the country over the war with Ukraine.
