

As an innovative, medium-sized solar energy company, BELECTRIC's vision is to make a clear contribution to the energy transition. We foster the acceptance of solar energy and strive for climate protection. Team spirit, respect, and philanthropy are just as much a part of our corporate culture as professionalism and sustainability.

Driving forward the energy transition and guaranteeing a future worth living to coming generations - this is what drives our day-to-day work at BELECTRIC. With more than 20 years of experience, we are your ideal partner for the development and construction of solar power plants and for all matters relating to solar energy and battery storage.

There, we operate from BELECTRIC locations in six countries. The headquarters of BELECTRIC GmbH are situated in Kolitzheim (Germany). In addition to Germany, our focus markets include Israel, the Netherlands, Denmark, the United Kingdom, France, Italy, and Spain. How do we succeed in making solar power economically attractive internationally?

BELECTRIC is a company that specializes in the development and construction of ground-mounted solar power plants. Its products include hybrid and floating photovoltaic (PV) systems and agri voltaics. The company offers asset operation and maintenance, inspection, engineering, procurement, consulting, and other services.

Whether floating PV, hybrid plants or agrivoltaics - BELECTRIC harnesses its worldwide experience and transfers it into various cutting edge solar technologies. As one of the world's largest O& M service providers, the solar energy specialist also takes care of operation and maintenance for a capacity of 2.2 GWp of PV plants.
