

Belgium storcube s1000

Who is storcube?

Storcube - the world's leading power and electronics brand. Backed by a state-of-the-art technology company and with experts from EMS, we have nearly 20 years of technological expertise. Our mission is to provide our customers with safe, practical and efficient products.

Why should you choose the S1000 solar storage for balcony power plant?

Dual independent MPPT for reliability: The S1000 solar storage for balcony power plant has two separate MPPT systems that ensure uninterrupted operation, even if one of them has problems. This maximises solar efficiency, overcomes obstacles such as buildings or trees.

Is the S1000 a smart investment?

Efficient solar storage and cost savings: The S1000 balcony power plant storage efficiently converts excess solar energy into stored electricity and saves EUR311 annually. With long-lasting LFP battery cells that last 15 years, potential savings of up to EUR4665 can be achieved. This makes the S1000 a smart investment that pays for itself in 2-3 years

Egal, ob Sie bereits Solarmodule oder Mikro-Wechselrichter besitzen, das S1000 integriert sich nahtlos mit beiden. Es ist die perfekte Wahl für Solar-Einsteiger und erfahrene Nutzer, um ein ...
