

Bermuda commercial and industrial solar projects

Our experienced team designs a customized solar solution that aligns with your energy requirements and budget. We offer a range of solar products, including Solar Power Generators, Direct Current Refrigerators, Direct Current Water Pumps, Portable Solar Panels, Fixed Solar Panels, and Sun Tracking Solar Panel mounts.

Bermuda's first Utility Scale Solar power facility, located on "The Finger" at the L.F. Wade International Airport on St. David's Island, has been awarded the Best Utility Scale Project as part of the 2022 Caribbean Renewable Energy Forum (CREF) Industry Awards.

By enhancing communication with installers about code requirements and deploying a Competent Persons Program, the solar industry can deliver more affordable, expedited projects, helping Bermuda reach 85% renewable energy by 2035.

With over 700 clean energy solutions in our portfolio, our team has completed a variety of project types on an assortment of properties throughout Bermuda. From residential and commercial solar systems, to large backup battery solutions, to providing charities with funding to deploy solar, we have implemented hundreds of custom designed ...

While we analyse the options for economical, large-scale, renewable power, we are laying the foundation to support Bermuda's transition, which includes retiring old engines; making internal practices and efficiencies ...

While we analyse the options for economical, large-scale, renewable power, we are laying the foundation to support Bermuda's transition, which includes retiring old engines; making internal practices and efficiencies more sustainable; moving to an entirely electric commercial fleet; upgrading our transmission and distribution network and ...

Bermuda Airport This project is a significant achievement for Saturn Power, BELCO, the government and the people of Bermuda, as it is the country's first utility-scale, renewable energy facility. Using over 20,000 photovoltaic solar panels, Saturn Power developed this 6 MW AC solar photovoltaic (PV) power generation facility, at "The Finger ...

For 14+ years we have deployed over 750 clean energy projects for residential, commercial, and charity properties. Our commitment to energy partnerships ensures that we deliver projects that have great economic, social, and environmental impacts for property owners and Bermuda.

Bermuda commercial and industrial solar projects

Commercial and Industrial Solar Solutions For homeowners looking to lower their energy bills and reduce their carbon footprint, our residential solar solutions are the answer. We offer a comprehensive range of solar products, including Solar Power Generators, Direct Current Refrigerators, Direct Current Water Pumps, Portable Solar Panels, Fixed ...
