

Big one energetic solutions Guernsey

Pathway D delivers a blend of energy sources that provides security of supply and effectively decarbonises our energy supply as the decades pass, where a combination of on-island solar PV, offshore wind, and a second European cable interconnector is proposed, to take us safely and securely to net zero by 2050.

We've been providing energy solutions to the Channel Islands for almost 200 years. Do you want to learn how you can save on your energy costs with Guernsey Energy? visit our website and view & buy our products or services.

A local company has publicly welcomed a move by the States of Guernsey to zero-rate the standby charge for all solar installations in the island. The Little Green Energy Company said it is a "significant stride towards embracing renewable energy and fostering a more sustainable future for the island".

Guernsey Energy offers a range of energy solutions for businesses including commercial boilers, smart controls, renewables, and combined heat and power. Our dedicated team will help manage your energy requirements so you can focus on business. Book your free energy consultation now.

Switching from oil to gas couldn't be easier. At Guernsey Energy we'll help you make the change so you can reduce your carbon emissions, become more energy efficient and be in control of costs. With an always on supply that's secure and reliable. We've been supplying gas to Guernsey for over 200 years.

A sustainable green energy choice has been secured for islanders after the Guernsey Competition & Regulatory Authority agreed to allow competition within the local electricity market. The Little Green Energy Company was today given the go ahead to generate and supply power to local homes and businesses through the use of solar panels.
