

What does the renewables readiness assessment mean for Bosnia & Herzegovina?

"The Renewables Readiness Assessment represents an important step in the process of gradual transition from fossil fuels to renewable energy sources on the way to the decarbonisation of Bosnia and Herzegovina's energy sector by 2050, for which we are grateful to IRENA.

Can solar power plants improve biodiversity in Bosnia and Herzegovina?

Future development of HPPs and the construction of new dams in Bosnia and Herzegovina should consider Strategic Environmental Assessments and effects on rivers' biodiversity. Solar energy has a great perspective for the implementation of solar power plants that counts for 70.5 × 10⁶ GWh of irradiated energy per year.

Why should Bosnia and Herzegovina invest in an integrated strategy?

An integrated strategy will provide investors with certainty and predictability, leading to a diversified economy and sustainable jobs creation. "The forthcoming National Climate and Energy Plan will put Bosnia and Herzegovina on the right path to ensure the energy security while improving its long-term resilience to climate change.

Is Bosnia and Herzegovina a good country for solar energy?

With around 60% of the land area, Bosnia and Herzegovina could have between 1.2 and 1.4 MWh/kWp of photovoltaic capacity compared to the world's solar potential. Compared to B&H and other Balkan countries, Serbia has a great potential for the implementation of solar energy.

What is the potential for bioenergy in Bosnia & Herzegovina?

Concerning bioenergy, the greatest potential lies in wood residues, since forests are one of the main natural resources of Bosnia and Herzegovina. There are currently two biogas power plants, but there is no available data about biofuel and other biowaste utilization. 1. Introduction

What is Bosnia & Herzegovina (BiH)?

Bosnia and Herzegovina (BiH) is one of the countries that is moving towards greater use of renewable energy sources. It consists of two entities: the Federation of Bosnia and Herzegovina (B&H/FB&H) and the Republika Srpska (B&H/RS).

The Renewables Readiness Assessment: Bosnia and Herzegovina finds that integrated short- and long-term strategies that aim to increase the share of diverse renewables will not only lead BiH to address ...

Renewable Energy Action Plan of Bosnia and Herzegovina 3 ... Srpska, and to create bylaws to more closely regulate this area. Action plans define policies, measures, mandatory targets ...
