

Solar energy is a promising sector in Bosnia and Herzegovina, with huge untapped potential. While the sector faces numerous challenges, the recent regulatory improvements coupled with the country's abundant sunlight resources create a favorable environment for investment.

It has just won approval from the Government of the Federation of Bosnia and Herzegovina for a photovoltaic plant with 150 MW in connection capacity. The location of the EPHZHB 1 project is in the Hodovo business zone in Stolac in the south of BiH.

The Solar also provides a safer, more secure way to connect yourself, thanks to its facial recognition and digital print unlocking. Lastly, its 4000 mAh battery gives it an autonomy of roughly 10 hours of communications. The Solar is available in both blue and black.

Comparison between Xiaomi 13 Pro and Logicom Solar Pro with the specifications of the smartphones, with their processor, the amount of memory, the storage, the power of the camera, as well as their performance in AnTuTu, Geekbench, PassMark.

The Solar also provides a safer, more secure way to connect yourself, thanks to its facial recognition and digital print unlocking. Lastly, its 4000 mAh battery gives it an autonomy of roughly 10 hours of communications. The Solar is available ...
