Who is Babcock & Wilcox?

Babcock & Wilcox has served the power generation industry for many years by providing a wide range of clean power production technologies and aftermarket support services including parts, equipment upgrades and field engineering. Hover over or click the pulsing dots to see B&W products and services for your coal-fired power plant.

Who is Babcock Power?

Rely on Babcock Power companies for complete OEM equipment solutions tailored to utility, industrial, and heat transfer applications. The BPI family of businesses has grown from the need for targeted solutions throughout the traditional and renewable energy sectors.

Why should you choose Babcock Power?

Gain strength in our numbers. Babcock Power delivers unmatched expertise across the energy spectrum with 10 strategically assembled business units, each serving a unique need for energy companies. Whether it's biomass, wind, or solar; coal, gas, or oil, the success of your energy project demands the best this industry has to offer.

Who is accept Babcock Power?

ACCEPT Babcock Power is a leader in providing innovative steam generation equipment design and power plant services. Learn more about our companies and solutions!

Who are VOGT Power & Babcock Power Environmental?

Vogt Power - recognized around the globe as innovative leader for HRSG and boiler services. Babcock Power Environmental provides solutions for fossil-fired plants, including boiler air pollution control systems, and SO<sub>2</sub>, HCl, SO<sub>3</sub> and mercury removal.

Who is Tei & Babcock Power?

TEi - an industry leader in heat transfer technology, including feedwater heaters, surface condensers and MSR. Babcock Power -- servicing the global power market with boiler air pollution control systems, feedwater heaters, MSR, HRSG, low NO<sub>x</sub> burners, surface condensers and boiler services.

Bouvet Island (/ ˈ b uː v eɪ / BOO-vay; Norwegian: Bouvet&#248;ya [3] [bʰv&#232ː;oeʔʔ]) [4] is an uninhabited subantarctic volcanic island and dependency of Norway. It is a protected nature reserve, and situated in the South Atlantic Ocean at the ...

The wet flue gas desulfurization (FGD) system from B& W features a combination of design components to provide a high level of reliability and removal efficiencies. These include B& W's signature tray tower design ...
