

Lithuania is a net energy importer. In 2019 Lithuania used around 11.4 TWh of electricity after producing just 3.6 TWh. [1] Systematic diversification of energy imports and resources is Lithuania's key energy strategy. [2] Long-term aims ...

Buffalo Energy Drinks GmbH is a fast-growing brand in the beverage space since 2007, with a presence in 20 countries and expanding. Shifting away from the traditional business-focused approach, Buffalo Energy places consumers' health as its most important priority.

Buffalo Energy was founded to facilitate the uptake of renewable energy in sub-Saharan Africa. We provide a bridge between investors and world class project opportunities in remote and inaccessible areas.

The 20Ltr Buffalo energy saving water boiler can make a real reduction in these costs. With its clever insulated double-walled stainless steel construction, the boiler can save up to 60% on energy use in comparison to traditional single-skinned boilers. Not only does this save you money - it reduces your environmental impact too.

The 10Ltr Buffalo energy saving water boiler can make a real reduction in these costs. With its clever insulated double-walled stainless steel construction, the boiler can save up to 60% on energy use in comparison to traditional single-skinned boilers. Not only does this save you money - it reduces your environmental impact too.
