

Bulgaria 500w solar panel price inia

How big is Bulgaria's solar power market?

This is a large market with rapidly increasing purchasing power. For the first time after a decade, a 58 MW new large-scale solar photovoltaic power plant of the Bulgarian company Real States was connected to the grid in April 2022, with the expectation to be increased to 150 MW.

How much solar power does Bulgaria have in 2022?

At the end of 2022, Bulgaria's cumulative installed solar PV capacity exceeded 1,700 MW (1.7 GW). Several large-scale solar photovoltaic (PV) projects with a power capacity above 50 MW were launched into commercial operation in Bulgaria in 2022. Local and international investors will build new solar projects between 2023 and 2025.

When will solar projects start in Bulgaria?

Several large-scale solar photovoltaic (PV) projects with a power capacity above 50 MW were launched into commercial operation in Bulgaria in 2022. Local and international investors will build new solar projects between 2023 and 2025. In the last few years, Bulgaria has been the focus of the investors' interest.

Will Bulgaria build new solar projects in 2023 & 2025?

Local and international investors will build new solar projects between 2023 and 2025. In the last few years, Bulgaria has been the focus of the investors' interest. Furthermore, Bulgaria quickly has to diminish its dependency on Russian energy imports, and solar power is one of the best renewable energy alternatives.
