SIA appears to be the most affordable and beneficial cloud storage crypto coin so far and its current market cap value stands at \$244,244,435. Storj Storj, pronounced "Storage", offers decentralized, end-to ...

Depends on who is trading. If ppl trading are low level and low skill average its a lot more sus. Id still say under 500m should be fine. At higher sa and level u can trade multiple billions without issue. Most i have dared to trade was a blaze setup worth 5-6b. Tho if it was raw coins I think i would have been banned.

Dear Skeli, I wonder if you can make a specialized Character and Region. I love the Pokemon unbound that you made. When I refer to specialized Character it means you're character can be edited by looks, (you have it on unbound but it lacks a little on making your height, weight, and hair design) dress, (I love the jacket in unbound and the costume set but can you add a little ...
