Who is Oman Oil & Gas?

We are a community-centric oil & gas operator that began operations in Oman in 2007. Through our associated companies, we bring to Oman over 20 years of exploration, development, and production experience in the oil and gas industry, both as an operating and non-operating co-venture partner.

What is CC Energy Limited?

CC Energy Limited (CCE) is a privately owned upstream oil and gas exploration and production (E&P) company which, through its subsidiary CC Energy Development S.A.L. (CCED), has operations in the Sultanate of Oman. CCE currently produces in excess of 40,000 bopd and is the 4th largest upstream E&P operator in Oman in terms of production volumes.

What is CC Energy Development?

CC Energy Development S.A.L. (CCED) is a value-driven oil and gas operator established in 2007. It is an independent company operating in Blocks 3 and 4 of the Sultanate of Oman, delivering sustainable growth for Oman. CCED is known for its 'think global, act local' mindset.

How many bopd does CCED produce in Oman?

CCED continues to roll out its multi-year multi-phase field development plan and is producing circa 34,000 BOPD, making it the fourth largest upstream E&P operator in Oman in terms of production volumes.

Who is the operator of Oman's blocks 3 & 4?

CC Energy acquired from EnCana Corp a 50% Operator Interest in Oman's Blocks 3 & 4 (Afar & Ghunaim). CC Energy is focused on growing a material E&P portfolio in the United States, with a main focus on non-operated positions in conventional high quality reservoirs of the Gulf Coast and the Gulf of Mexico.

Where did CCED find oil?

In 2009, CCED began its exploration program and drilled two back-to-back discoveries identifying commercial fields in the Farha South and Saiwan East areas. This was the first time light oil had been discovered in the Khufai reservoir in Oman and the first time oil had been discovered in the Barik in these blocks.
