

# China ground mount solar racking

What is a ground mount solar racking system?

Your Ground Mount Solar Rack is one of the most affordable ground mounted solar racking systems on the market today. Given that this Ground Mount Solar Rack is constructed from galvanized steel, rather than a more expensive aluminum alloy, the overall price is kept to a minimum. These material savings are then passed onto the consumer!

What is the best solar panel racking and mounting option?

The best solar panel racking and mounting option for you depends on your roofing system- the shape, your ability or willingness to drill holes, and the space and needs of your property will all have an impact on what makes the racking and mounting options best for you.
