

Cm solar scheme 2024 Vanuatu

What is Vanuatu's New solar farm?

Set to be constructed by the Vanuatu Electricity Authority (VEA) in collaboration with the Asian Development Bank (ADB) and the European Union (EU), this solar farm boasts a capacity of 5 megawatts. Upon completion, it is expected to produce 7,500 megawatt-hours of electricity annually, enough to power around 2,000 local homes.

Is solar a good idea for Vanuatu?

Antony Garae, Director of the Vanuatu Department of Energy, said this project is a great boon to his country, where 80 percent of rural residents lack electricity. "Solar is the best solution for these areas not only because of its obvious contributions to climate change mitigation but because fuel is costly and difficult to transport," he said.

Does Vanuatu have a carbon credit?

Vanuatu has tabbed on the carbon credit market to be able to sell its carbon emission offset to the Swiss government as their National Determined Contribution (NDC) for instance a 10kwh of solar will be equivalent to how much fuel used is offset and purchased by the Swiss government as their NDC.

Will ITMO revenues facilitate a green transition in Vanuatu?

The bilateral agreement with Switzerland was signed with the expectation that ITMO revenues will facilitate a green transition in Vanuatu, contributing to the achievement of the NDC targets, including the financial sustainability on the NGEF operations.

Solar panels installed in the desert, elevated on stands reaching up to 105 meters, allowing plants to grow beneath them as part of the eco-friendly design. By Nicholas Mwai Pan Zhanguo, Chief Engineer of Zhongwei Longyuan New Energy Company, explaining the solar project to journalists from Africa and three Pacific Island nations during their ...

Vanuatu's geography makes it difficult to create centralized energy systems, which leaves many communities and islands needing electricity, hindering development and forcing the use of fossil fuels for lighting. Only 20 percent of Vanuatu's rural residents have access to electricity.

More than 100 clients of Navara Savings and Credit Cooperative Society Limited (NSCL) are reaping the benefits of its innovative Solar Home System Loan & Subsidy Project across Vanuatu's six provinces.

Under this Roadmap, Vanuatu will be 100% green by 2030. With the current developments in solar technology and the backing of the Vanuatu Government in private sector investment into Rooftop Solar, we are closer than ever to achieving this objective.

Cm solar scheme 2024 Vanuatu

In the heart of the desert, the Zhongwei Longyuan New Energy Company has been leading a massive solar energy project that not only generates renewable energy but also rehabilitates the surrounding ecosystem. This solar project, which started in 2022 and is scheduled for completion by 2025, spans an area approximately the size of 2,600 ...
