

Are RCT power batteries safe?

The RCT Power Battery excels at safety and in battery lifetime. The energy storage for solar electricity uses lithium iron phosphate battery cells that are considered to be among the safest lithium ion batteries.

What is a RCT Power Battery?

Get the most out of your photovoltaic system. Storage of generated solar energy is a key issue for owners of solar installations. The RCT Power Battery provides a particular safe and resource-conserving solution for the management of energy needs of residential homes and commercial buildings and facilities.

Why should you choose a high voltage battery from RCT power?

The high voltage battery from RCT Power guarantees highest efficiency and autonomy. The modular system can be upgraded and adapted to fit user requirements. Your system grows to accommodate new energy consuming appliances, e.g. an electric car. All our batteries are delivered in the elegant design that is typical for RCT Power.

With the integrated high voltage battery connection and two MPP trackers, a flexible battery storage system can be set up with the RCT Power Storage. The battery is a modular plug system. With a weight of 25 kg per battery module, it is easy to transport and install.

Kapazität: 11,5 kWh; Batterietyp: Lithium-Ionen; Nominale Spannung: 48V; Maximale Lade-/Entladeleistung: 5 kW; Effizienz: 97%; Abmessungen: 700 mm x 500 mm x 300 mm; Gewicht: 120 kg; Leistung. Die RCT Power Battery 11.5 überzeugt durch ihre hohe Effizienz und zuverlässige Leistung.

Powerful RCT Power App Full data visualization Monitoring from every location Configuration options One-click update ... suitable for back-up systems SUSTAINABLE lithium-iron-phosphate cell chemistry 10 years time value guarantee 1 BLOCK DIAGRAM POWER BATTERY 3.8 | 5.7 | 7.6 | 9.6 | 11.5 MODULAR HIGH VOLTAGE BATTERY FOR PV STORAGE SYSTEMS. ...

In connection with the RCT Power Storage and Switch, all loads can be supplied with the Power Battery 11.5 and photovoltaic system in case of a power failure. Product benefits . Scalable and expandable; Simple transport and installation due to modular design and easy cabling; Standby power supply possible with the optional RCT Power Switch ...

With the powerful RCT RESS App you can manage and control all functions of your storage system. Installation, maintenance and control are made easy. ... POWER BATTERY 3.8 5.7 7.6 9.6 11.5 ELECTRICAL PARAMETERS Nominal capacity 3,84 kWh 5,76 kWh 7,68 kWh 9,60 kWh 11,52 kWh

Usable capacity (90% DoD) 3,46 kWh 5,18 kWh 6,91 kWh 8,64 kWh 10,37 kWh ...

RCT Power Storage DC 10.0 with 10.4 kWh high-voltage battery. The RCT Power Storage is a 3-phase hybrid inverter. With the integrated high voltage battery connection and two MPP trackers, a flexible battery storage system can be set up with the RCT Power Storage. The battery is a modular plug system.

**FLEXIBLE AND UPGRADEABLE** 2 - 6 battery stacks Usable capacity scalable in increments of 1.7 kWh Upgradeable Suitable for back-up systems **SUSTAINABLE** Lithium-iron-phosphate cell chemistry 10 years time value guarantee.

The high voltage battery from RCT Power guarantees highest efficiency and autonomy. The modular system can be upgraded and adapted to fit user requirements. Your system grows to accommodate new energy consuming appliances, e.g. an electric car. All our batteries are delivered in the elegant design that is typical for RCT Power.

With the integrated high voltage battery connection and two MPP trackers, a flexible battery storage system can be set up with the RCT Power Storage. The battery is a modular plug system. With a weight of 25 kg per battery module, it ...
