

Nuru (Swahili for "light") is a company dedicated to enhancing connectivity in the Democratic Republic of Congo. Nuru deployed Congo's first solar-based mini-grid in 2017 and has a 1.3MW solar hybrid site in Goma, the largest off-grid mini ...

The battery can store the extra energy produced from solar panels during the day to avoid using electricity at a more expensive rate. The peak time-of-use (TOU) rates can be double the price ...

An international consortium led by Powergrids plans to invest \$100 million in three off-grid solar plants intended to power the cities of Gemena, Bumba, and Isiro, which are located in the...
