Does a 2022 Corolla hybrid save gas?

I bought this 2022 Corolla Hybrid new with the goal to save gas and last for 15 plus years of commute driving. The EPA mileage of 52 combined was easily exceeded in the first 2 days of driving it. I'm now getting 70+mpg on my commute which is a mix of city/freeway/hills/bumper to bumper, etc. This car excels in everything I want for a commuter car.
