What is a Deye se-g5.1 Pro-B Battery?

The Deye SE-G5.1 Pro-B is a cutting-edge lithium iron phosphate(LFP) battery designed for safe, reliable, and flexible energy storage solutions. This modular battery system is perfect for both residential and commercial applications, allowing you to increase your self-consumption ratio and optimize your energy usage.

What is a Deye g5.1 Pro battery?

In summary, the DEYE E-G5.1 Pro battery is an advanced energy storage solution, combining durability, safety, flexibility and environmental friendliness, ideal for a wide range of residential and commercial applications. Quick and easy installation! The DEYE G5.1 PRO battery assembles very easily, all mounting accessories are included in the kit.

What is the warranty on the Deye e-g5.1 Pro battery?

The battery is covered by a 10-year warranty, with an energy throughput of 16MWh at 70% EOL. In summary, the DEYE E-G5.1 Pro battery is an advanced energy storage solution, combining durability, safety, flexibility and environmental friendliness, ideal for a wide range of residential and commercial applications. Quick and easy installation!

What is the battery capacity of Deye e-g5.1 pro?

The battery offers a nominal capacity of 5.12kWh and usable energy of 4.6kWh, under test conditions of 90% DOD and charge/discharge at 0.5C at 25°C. The DEYE E-G5.1 Pro is compatible with different mounting methods, including standard 19-inch rack mounting, wall mounting and floor mounting, providing great installation flexibility in tight spaces.

Is Deye LFP a good battery?

"DEYE is introducing its LFP lithium range with its SE-G5.1 Pro battery, incorporating 100Ah prismatic cells, probably EVE Grade A. The quality and longevity are therefore there, especially since the manufacturer has subjected to the most rigorous tests, including UL 9540A which evaluates thermal behavior in the event of an accident (fire, etc.).

How many units can a Deye e-g5.1 pro connect?

The modular design of the DEYE E-G5.1 Pro allows for easy expansion, with the ability to connect up to 64 units in parallel to reach a maximum capacity of 327kWh. This flexibility makes it suitable for both residential and commercial applications, allowing the self-consumption ratio to be increased.
