

What is a dualsun solar panel?

DualSun aims to reduce the energy consumption of buildings by producing solar heat and electricity. Briefly, the DualSun solar panel is an advanced hybrid solar (PV-T) technology that produces simultaneously electricity (photovoltaic) and hot water (solar thermal).

Where are dualsun solar panels made?

Designed in France Dualsun's R&D center is based in Marseille, France and our engineers innovate continuously to reduce the environmental impact of our solar panels. Your solar project from A to Z Dualsun is more than a solar panel manufacturer. With our online services, we guide our clients and partners from design to installation and beyond.

Are dualsun solar panels low-carbon?

Dualsun presents a complete range of photovoltaic panels, with each model adapted to a specific project type. Dualsun offers a range of solar panels 100% low-carbon, with a firm commitment to sustainability, recyclability and low-carbon energy. Dualsun SPRING produces electricity at the front and hot water at the back, doubling the solar output.

How does a dualsun spring solar panel work?

With its 2-in-1 solar technology, the Dualsun SPRING hybrid panel produces electricity on its front side, then recovers the extra energy to heat circulating water using an innovative heat exchanger on its back side. The water flow in the exchanger has 2 benefits:

Are dualsun solar panels recyclable?

Recyclable: Dualsun carefully selects all manufacturing materials. As a result, the SPRING solar panel is nearly 95% recyclable! **Durable:** the "energy payback" of the SPRING solar panel is 1 to 3 years for a lifespan that exceeds 30 years.

What certifications does dualsun have?

The Dualsun plant has ISO:9001 certification and the Industrie du Futur label. The Dualsun SPRING panels have an "IMF" certificate attesting that they are manufactured in France: FR-IMF-2019-198. Intelligence is integrated into the Dualsun SPRING panel.

DualSun aims to reduce the energy consumption of buildings by producing solar heat and electricity. Briefly, the DualSun solar panel is an advanced hybrid solar (PV-T) technology that ...

Dual-Axis Follow-the-Sun Solar Panel. System Design: The design phase is crucial for developing a robust dual-axis solar tracking solution. It involves determining the ...

Dual sun solar system Guadeloupe

DualSun, Systovi, Photowatt et VOLTEC Solar sont les meilleurs fabricants de panneaux solaires photovoltaïques. L'industrie internationale, des acteurs tels que le fabricant ...

DualSun solar panels are renowned for their quality and efficiency, offering excellent value over their operational lifespan. While upfront costs may vary, the long-term benefits of DualSun's durable and high-performance photovoltaic ...

Dualsun, détenteur de la certification Solar Keymark. Le certificat Solar Keymark est un label délivré par le Comité Européen de la Normalisation (CEN). Via un monitoring régulier du produit et de la gestion de ...

«Il est trop tôt pour mesurer l'efficacité des panneaux solaires, mais nous avons choisi Dual Sun en connaissance de cause, parce que c'est une entreprise française d'excellente réputation» Molin.

Solar electricity and domestic hot water. 60% in cost savings on your electricity and hot water bills with SPRING hybrid solar panels. 2x more energy. For the domestic hot water solution, the ...

Les avis sur le fabricant. Les avis clients sur DualSun sont pour la plupart positifs et la marque bénéficie ainsi d'une note moyenne de 4,8/5 sur Trustpilot. Sont appréciés son ...

Le site est une source d'information sur les panneaux solaires et les technologies connexes. Le site a été créé pour promouvoir les services de Les informations contenues dans le site sont ...

«Il est trop tôt pour mesurer l'efficacité des panneaux solaires, mais nous avons choisi Dual Sun en connaissance de cause, parce que c'est une entreprise française ...

High Performance The FLASH product range was developed by our solar experts to combine the best high-performance solar cell technologies for maximum efficiency. Low-carbon The FLASH panel releases less CO2 than a standard ...

Oui, l'installation de nos panneaux DualSun sur des bateaux, camping cars, yourtes ou tiny-houses est possible, cependant, pour exploiter la partie thermique du panneau il faut prévoir ...

DualSun solar panels are renowned for their quality and efficiency, offering excellent value over their operational lifespan. While upfront costs may vary, the long-term benefits of DualSun's ...
