

Who is Ekotek energy?

Ekotek Energy is one of the leading solar products manufacturing company around the world. We focus on offering reliable and cost-effective solar products designed to improve the lives of people who do not have access to the electric grid.

Why should you choose Ekotek?

Our products provide powerful illumination as well as the ability to recharge other electronics at the same time, such as mobile phones, tablets, and other communication devices. At Ekotek, we understand that access to power is a basic need for all, and that it is closely connected with human development.

Who uses EKOenergy?

EKOenergy users include international companies, cities, and households. Our label is an internationally recognised communication tool. We are a global, nonprofit ecolabel for renewable energy. Electricity, gas and heat sold with the EKOenergy label fulfil extra sustainability criteria.

What is Finland's Energy Policy?

Finland's approach includes nuclear energy, more renewables for electricity and heat, improved energy efficiency, and economy-wide electrification. After Russia's 2022 invasion of Ukraine, Finland moved to cut Russian energy imports, which previously comprised 81% of crude oil, 75% of natural gas, and 19% of electricity imports in 2021.

What is Finland's Energy and Climate Strategy?

Finland's energy and climate strategy targets carbon neutrality by 2035, emphasizing energy security, sustainability, and biodiversity.

What is Finland's energy supply in 2021?

In 2021, Finland's Total Energy Supply (TES) comprised bioenergy and waste (33.6%), oil (20.8%), nuclear (18.5%), coal (6.3%), natural gas (6.4%), electricity imports (4.6%), hydro (4.1%), peat (2.7%), wind (2.2%), and heat (0.6%).

EKOenergy is a global nonprofit ecolabel for energy (renewable electricity, renewable gas, heat and cold). In addition to being renewable, the energy sold with the EKOenergy label fulfils ...
