

Our commitment to a quality product, with its associated high return on investment, is attained through more than 85 years of experience producing electrical machinery and by implementing manufacturing systems based on highly successful industrial concepts.

Used to house electrical or electronic switchgear, control gear and equipment necessary to supply, distribute and transform electricity. Made with materials of the highest quality, they have all certificates for domestic and international markets.

Our products, including boxes and cabinets, offer optimal protection for installations in sectors such as electricity, water, gas, telecommunications, photovoltaic plants, railway installations, and underground infrastructures, adapting to challenging and harsh environments.

Wall-mounting cabinets Used to house electrical or electronic switchgear, control gear and equipment necessary to supply, distribute and transform electricity. Made with materials of the highest quality, they have all certificates for domestic and international markets.
