Is enderio a reskin?

Now, the new energy system that EnderIO uses also brought a comment or two, however it's practically a reskin, since it still uses the Forge Energy API under the hood, which means it can be trivially converted to almost any other energy system which is compatible with the Forge Energy API. It does, however, look 20% cooler.

What type of energy is used in Burundi?

Renewable energy here is the sum of hydropower, wind, solar, geothermal, modern biomass and wave and tidal energy. Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important energy source in lower-income settings.
