

The French overseas territory of New Caledonia has hailed the switch-on of a 16MWp solar farm, with battery energy storage to be later attached, and another standalone 5MWh battery project, as...

Akuo plans to deploy 200 MWh of battery storage in New Caledonia, supplying 50 MW for three hours per day over 12 years. The facility will primarily support the operation of nickel mines ...

The government of New Caledonia, a French overseas territory in Polynesia, has given the green light to the construction of a 50-MW/150-MWh battery energy storage system (BESS) by domestic renewable power producer and developer Akuo.

TotalEnergies SE TTE announced that it will develop clean energy and energy storage projects in New Caledonia. Within the 2022-2025 time period, TotalEnergies will develop ground-based ...

Annual generation per unit of installed PV capacity (MWh/kWp) 10.5 tC/ha/yr Solar PV: Solar resource potential has been divided into seven classes, each representing a range of annual PV output per unit of capacity (kWh/kWp/yr). The bar chart shows the proportion of a ...

French renewables developer Akuo has won a tender to build a large-scale battery storage system in New Caledonia, a French overseas territory in the southwestern Pacific Ocean. The giant battery is expected to be the largest storage facility in the region and also in France, with a planned storage capacity of 200 MWh.

From pv magazine France Total Quadran, a unit of French oil and gas producer Total, has commissioned the H&#233;lio Boulouparis 2 photovoltaic power plant in New Caledonia, a French overseas...

The H&#233;lio Boulouparis 2 project consists of over 58,000 solar panels with a cumulative peak capacity of 16 MW - enough to cover the energy needs of over 21,000 residents of New Caledonia. The plant will also feature a lithium-ion battery storage system with a capacity of nearly 10MW (The hours of storage were not released)..
