Mobile and stationary energy storage solutions and battery storage units increase energy supply flexibility by de-coupling energy production from its consumption and by stabilizing the network frequency. DC contactors by Schaltbau are ...

A leading manufacturer of modular vanadium redox flow batteries for energy storage was looking for an alternative to gas encapsulated contactors. The solution used so far led to recurring field failures resulting in system downtime.

The service life requirement for a DC contactor is essentially defined by the application. Here, a differentiation is made between mechanical (no-load switching cycles) and electrical (switching ...
