

Equatorial Guinea sunik power solutions

The company's solar home systems power lights, mobile phones, radios, and larger home appliances. Sun King systems are dramatically more affordable and sustainable than kerosene or new power lines, allowing customers to leapfrog electrical grids and fossil-fuel energy sources entirely.

International service provider Petrofac has been awarded a \$350 million technical services contract by Equatorial Guinea's NOC GEPetrol. In support of Equatorial Guinea's Block B assets, Petrofac will deliver services across onshore support bases, an FPSO and a platform on behalf of GEPetrol - which serves as the block's operator - for five years.

Nigerian Minister of State for Petroleum Resources (Gas) Ekperikpe Ekpo, as reported by the Sun, emphasised the economic advantages, pointing out that the project will boost Nigeria's gas production and support Equatorial Guinea's underused LNG and methanol facilities.

Equatorial Guinea, located on the west coast of Central Africa, has a diverse geographical layout with coastal plains rising to interior hills and plateaus. This spread-out geography and a relatively small population of around 1.6 million people can present challenges for technology and telecommunications infrastructure.

In a groundbreaking initiative, Aptech Africa is leading a mission to bring sustainable energy solutions to the isolated communities of Equatorial Guinea. By deploying 11 advanced solar systems, Aptech Africa is not only illuminating lives but also fostering development and paving the way for a brighter future.

For several African countries, including Equatorial Guinea, Gas-to-Power will be the anchor sector for the development of a domestic and regional gas and power economy in Sub-Saharan Africa." ... as well as gas to power systems. Wärtsilä's solutions provide the needed flexibility to integrate renewables and secure power system reliability ...
