

Who are Mey energy contractors?

Mey Energy said its contractors are all from North Macedonia. The new utility added that its Novaci unit will have a lifespan of 25 years. It said it would sell the electricity on the free market, primarily within the country. The solar power plant was built on private land.

Why did Eritreans need solar energy?

Mr. Aklilu added that renewable energy, especially solar energy, was back then a novel technology to Eritreans, and, therefore, they had to learn how to install big solar energy plants to generate sufficient power to supply energy to many villages and farms.

Where is Mey energy's new solar power plant located?

Mey Energy said it finished its 55 MW solar power plant in the municipality of Novaci, in the heart of the country's coal industry. The system was built next to the Suvodol open pit. The company founded in 2020 announced it would start producing electricity before the end of the month.
