

Evergreen solar power Barbados

Williams Solar (the trading name of Williams Evergreen Ltd.) today ranks as one of the most experienced developers of solar photovoltaic (PV) projects in Barbados, having installed over 10MWp of solar PV to date.

Williams Solar, operating under the trading name of Williams Evergreen Ltd., has established itself as a premier developer of solar photovoltaic (PV) projects in Barbados and the wider Caribbean. With a noteworthy portfolio that exceeds 30 MWp of solar PV installations, the company's expertise spans a diverse range of projects.

Williams Solar has the view that everyone has an equal opportunity to contribute towards the transition to clean, sustainable renewable energy sources. Williams Solar provides energy solutions that include engineering, procurement, construction (Solar EPC) and operations and maintenance (O& M) packages to help achieve this goal.

Barbados has set a national target to transform its energy infrastructure to one hundred percent renewable by 2030. For Williams Solar, this is a push in the right direction for the environment, Barbados's economy, and its bottom line.

Washington, D.C. - Ex-Im Bank provided a \$6.4 million loan guarantee to finance the export of solar modules from West Coast-based SolarWorld Americas to Williams Industries Inc.-Williams evergreen Ltd. of St. Thomas, Barbados. This project, one of the largest in the Caribbean, includes engineering services and solar-system racking exported from ...
