

Automation in plant installation is not cost effective in India, and thus its growth in the country has been restricted so far. Further, solar plants with storage systems have not grown at the same pace as distributed solar installations due to the sheer volume and cost involved, thereby resulting in low market penetration.

Automation: full or low automation? Total investment: what will be the invest in machines, building, ramp up and so on? Business Plan: how to make the business plan for investors! ... France completes C& I rooftop solar project bidding, awarding 362.2 MW to 42 developers at an average cost of EUR0.1021/kWh.
