Ankara solar is one of the best solar panel manufacturers in Turkey, with an annual production of over 100mW. Most of the solar panels are exported to Europe, the Middle East, the United States, and many countries worldwide.

Although Turkey manufactures solar panels using its own internal resources, not all solar panel components are manufactured locally. Therefore, prices will increase proportionally if the requested basic material is imported from abroad.

As electricity prices continue to soar in France - up 60% in four years - more people are turning towards solar panel kits, which promise to help users save on energy costs and installation prices. The estimated extra cost of electricity in 2024, compared to 2020, is EUR540 per household per year.
