

French Southern Territories waaree solar panel price

Are solar panels a good investment in France?

As electricity prices continue to soar in France - up 60% in four years - more people are turning towards solar panel kits, which promise to help users save on energy costs and installation prices. The estimated extra cost of electricity in 2024, compared to 2020, is EUR540 per household per year.

How much does it cost to install solar panels in France?

However, as a rule of thumb, the French energy management agency 'ADEME' considers the cost to be EUR3,000 to EUR4,500 per kilowatt of power created. As most domestic installations generate around 3k/W of power, this means the cost of the panels themselves is EUR9,000 to EUR13,000. For 6 k/W of power expect to pay EUR16,000 to EUR19,000
