4 ???· It's unclear what will become of Fulcrum's Nevada assets. The feedstock processing facility purchased by WM was upgraded by Van Dyk Recycling Solutions in late 2021. The renovation allowed the facility, which pulled out organics from MSW, to process 120 tons of waste per hour across two lines to produce a gasifier feedstock, according to a Van Dyk spokesperson.

(Bloomberg) --Fulcrum BioEnergy, a clean-fuels pioneer that raised more than \$1 billion to turn household waste into lower-emitting fuels for planes and trucks, is in danger of going under. The company recently laid off nearly all of its staff of about 100 and halted most of its operations, according to more than a half-dozen former employees.

We partner with governments and companies to develop the necessary gas infrastructure to produce and sell natural gas and LNG, which we believe is a crucial resource to deliver reliable energy to the world while transitioning to more sustainable energy sources.
