Why is Mali building a new solar power plant?

As Mali grapples with an ongoing electricity crisis that hampers economic growth, transitional President Assimi Goïta laid the foundation stone for a new 200 MW photovoltaic solar power plant. The Russian company NovaWind, a subsidiary of Rosatom, is constructing the plant, marking a significant step in the country's energy sector.

Why is Mali launching a 200 MWp solar power plant?

Loading... Mali's President Assimi Goïta has launched a 200 MWp solar power plant project with NovaWind, a Rosatom subsidiary, to address the nation's electricity crisis and promote sustainable energy. The EUR200 million investment aims to supply 10% of Mali's electricity within 12 months.

Which company is constructing a new energy plant in Mali?

The Russian company NovaWind, a subsidiary of Rosatom, is constructing the plant, marking a significant step in the country's energy sector. In recent weeks, Mali's transitional government has intensified efforts to implement this solution nationwide.

Where is the largest solar power plant in Sub-Saharan Africa?

On May 24, 2024, President Goïta visited Sanankoroba in the Kati Cercle to initiate the construction of the largest solar power plant in sub-Saharan Africa, covering 314 hectares. About thirty kilometers from the capital, Bamako, this project is part of a government partnership with NovaWind.

How much will NovaWind invest in Mali?

NovaWind will invest EUR200 million in the Mali project, expected to be operational in 12 months. The plant aims to supply 10% of Mali's electricity. Before the construction commenced, President Goïta met with NovaWind's Managing Director, Grigory Nazarov, to discuss the project's progress.

Mali's President Assimi Goïta has launched a 200 MWp solar power plant project with NovaWind, a Rosatom subsidiary, to address the nation's electricity crisis and promote sustainable energy. The EUR200 million investment aims to supply 10% of Mali's electricity within 12 months.

The Fana Solar Power Station is a planned 50 MW (67,000 hp) solar power plant in Mali. The power station is in the development stage, under concessional terms by the company Legendre Energy, a subsidiary of the Legendre Group, a French conglomerate, under a public private partnership arrangement.

Mali has a strong foundation for renewable energy, particularly solar power, due to its high solar irradiation levels of 5-7 kWh/m²/day across the territory, making it an attractive location for solar thermal plant projects.

At Kaba Solar, we're on a mission to accelerate the adoption of solar energy in Mali. Our top-of-the-line solar
