In the past three years, approximately half of Gibraltar's power cuts have been a result of generation issues at the North Mole power station and the Electricity Authority believes these should be dealt with by the proposed Battery Energy Storage System.

Sunday night's Gibraltar-wide power outage was caused by a failure in one of the two power transformers at the North Mole Power Station. There was a loud bang and some smoke; the Electricity Authority says that this was contained, and nobody was hurt. Power was lost just before midnight and returned by 2am.
