

Greece franklin battery price

How much does a Franklin home power battery cost?

After taxes and installation labor, the average cost of the Franklin Home Power system is about \$18,000. This is fairly expensive for a 13.6 kWh battery. Even after taxes and labor costs, you can find other batteries of similar size for under \$15,000. For instance, the Tesla Powerwall, a 13.5 kWh battery, costs between \$9,000 and \$13,000.

How much does a Franklin aPower battery cost?

After claiming the 30% federal clean energy credit on your taxes, the net cost comes down to \$12,600. How did we get to that figure? Well, the retail price of a Franklin aPower battery is currently listed at \$11,000 and the aGate controller is listed at \$3,500. That puts our equipment cost at \$14,500.

Does Franklin Wh have a battery system?

FranklinWH claims its battery system is available in every state. The Franklin Home Power system has predominantly been all about backup power, powering your home in the event of a grid outage.

What kind of battery does Franklin home power use?

Franklin Home Power integrates solar, grid, battery storage, and generator. The aPower is a robust 13.6 kWh battery that can be expanded to 15 units per aGate, reaching a total storage capacity of 204 kWh. As an AC-coupled LFP battery, it features the safest battery chemistry in the industry to date and can connect directly to household loads.

How many kWh can a Franklin home power battery store?

The Franklin Home Power's capacity is pretty big. One battery (aPower) unit can store 13.6 kWh of energy. If you're looking for a battery with larger storage capacity, this is worth considering.

How much does the franklinwh home power solution cost?

As an estimate, you can expect the FranklinWH Home Power Solution (including both the aPower and the aGate) to cost about \$10,000. If you want to install the Home Power Solution as part of a solar-plus-storage system, battery costs are just one part of the equation.

I haven't seen a Franklin price yet, but given the "ease of installation" and general reviews, I bet it's 10-20% cheaper than Enphase, but with better returns on larger systems. Enphase have ...
