

What is Sunny Tripower storage 60?

The Sunny Tripower Storage 60 allows efficient integration of storage systems into future-proof energy concepts with or without a PV system. Supply peak loads with a storage system and thus reduce demand charges. The Multi-Use function makes it possible to use the optional peak load shaving and increased self-consumption simultaneously.

What is Sunny Tripower X?

The new Sunny Tripower X is the innovative system solution for commercial and large home PV systems. The integrated System Manager function with direct access to Sunny Portal powered by ennexOS monitors up to five SMA inverters and one energy meter.

Why should you choose Sunny Tripower storage?

Whether Peak Load Shaving, Time of Use-Tariffs (ToU) and the increase of PV self consumption for grid tied systems or the fuel cost reduction in PV-Diesel-Hybrid applications - the Sunny Tripower Storage offers various use cases and chances for new business models. Does not apply to all national annexes of EN 50438 and/or EN 50549 Max.

Does the SMA commercial storage solution have a meter?

By default, the SMA Commercial Storage Solution is supplied with a meter for a measurement range of up to 600 A and low-voltage connection. For systems with other requirements, a different meter can be selected during ordering. **) In preparation
