Empower your home with Solar PV, seamlessly blending high aesthetics with exceptional performance. By harnessing the sun's power, you'll not only contribute to a zero-carbon world but achieve energy independence, reduce running costs ...

In 2023 Guernsey Electricity worked in conjunction with The Little Green Energy Company to install the vast community-scale solar array at Grow Limited's newly redeveloped headquarters. The 310 photovoltaic (PV) panels will produce 129-kilowatt peak power (kWp). That's enough electricity to supply power to approximately 35 homes.

Solar panels can help lower your electricity bills and they only require daylight to work, even if the sun is not shining you are still getting free electric! Here at Island Electrics Ltd, we can help consult and advise on what would be best for your property as well as look after your installation with full servicing.

How Much Electricity Do Solar Panels Produce And How Much Does It Cost? The following table details the different sizes in which solar panel systems are typically available, along with their annual energy output and estimated costs.

A typical Guernsey home has at least one roof that faces east, south or west, or a flat roof that may be open to all the sun's orientations. From a few panels to four panels or more and typically 6 to 10 panels, you can maximise your generation by maximising your roof spaces.

Here you can find a list of installers supplying Solar Panels and Solar PV systems in Guernsey and the surrounding area. You can contact them using the "Get a Quote" system and ask them for information or a quotation at your leisure.

The Little Green Energy Company have just installed 309 roof mounted solar panels with Guernsey Electricity Limited on the power station, Northside, Vale, creating the largest solar array in the Channel Islands, generating over 100kWp of power.
