

Inty power Tunisia

What drives Tunisia's energy transition?

Three key drivers will dictate Tunisia's energy transition: energy security, given Tunisia's growing energy balance deficit; economics, given the relative decrease in the price of renewables; and environment, given the Country's commitment to reduce domestic greenhouse gas emissions.

Who produces the most electricity in Tunisia?

While STEG controls the vast majority (91.7%) of installed generating capacity and generates 84% of the country's electricity, there is one independent power producer, Carthage Power Company, operating in Tunisia. Carthage Power Company owns and operates a 471-MW combined cycle power plant.

What percentage of Tunisia's electricity is generated from natural gas?

In 2020, natural gas made up 86% of Tunisia's installed capacity and 95% of power generation, while renewable energy made up 13% of installed capacity and 5% of power generation. Fossil fuels represent the majority of Tunisia's electricity generation mix (approximately 97%), with natural gas being the primary fuel source.

What does Voltalia do in Tunisia?

Anyango, Anita (2024-05-13). "Voltalia wins contract for 130 MWp solar power project in Tunisia". Pumps Africa. Retrieved 2024-06-04. The Government of Tunisia is taking steps to diversify its energy generation mix by bringing on hydropower and solar energy.

How is power Tunisia funded?

The Power Tunisia Activity is funded through USAID and made possible by the generosity of the US government and the American People. The author's views expressed on this website do not necessarily reflect the views of the United States Agency for International Development or the United States Government

Why does Tunisia need more electricity?

As one of the most climate vulnerable Mediterranean countries, Tunisia's electrical system is expecting increased demand resulting from expanding peak-hour demand patterns, intensifying cooling needs stemming from greater warm spells, and increasing desalination needs.

En mobilisant 40 millions de dollars américains, Power Tunisia vise à soutenir près de 2 000 entreprises tunisiennes dans l'adoption de solutions énergétiques propres.
